CREATIVITY COMMUNITY

Character

“The mission of Future Leaders of Irving is to identify, educate, and develop our local youth to become future business and civic leaders.”

This is accomplished by exposing participants to the elements and operations of local government, nonprofit and businesses through introductions by appropriate role models.

The vision of FLI is to create future leaders who will have greater awareness of, participation in, and contribution to the local community.

FLI is timed to introduce seniors to these areas as they evaluate their college and career options. As a result of participating in the program, students have consistently broadened their views of the opportunities available to them.

After each session students have reported an improvement in self-confidence, writing skills, public speaking, decision making, problem solving, leadership skills and personal growth as well as an expanded view of their educational and career options.
